INDIANS TO ELECT COUNCIL MONDAY

The twenty-nine members of the Agua Caliente Indian Tribe will go to the polls next Monday to elect five members of the Tribal Council.

It is the first time since the drawing of the tribe's constitution and by-laws that the entire council has come up for election.

VIOLA OLINGER, past chairman of the tribal council, and Gloria Gillette, a member of the council for many years, have each declared themselves out of the race. Mrs. Olinger resigned as chairman of the council effective last Feb. 1.

Of the balance of 27 candidates (each voter is a candidate) it is believed that the most popular for election to the council will be incumbents Ellen Miguel, LaVerne Saubel and Dora Joyce Prieto, and tribal members Priscilla Gonzalez, who lost a seat on the council at the last election by one vote, Leon Welmas, Ruth Chormi-

cle, Beverly Diaz and Corinne Siva.

THE NINETEEN remaining voters and candidates include: Pete Siva, youngest voter of the tribe, John Andreas, Lee Arenas, Juana Hatchitt, Celia Hopkins, Carrie McCoy, Lorene McGlamary, Richard Amado Miguel, Elizabeth Monk, Frank Moro, Joe Patencio, Anna Pierce, Lawrence Pierce, Dorothy Rice, Genevieve St. Marie, Eugene Segundo (currently in the armed forces), Flora Siva, Ester Voorhees and Albert Welmas.

The tribal council has been made up of all women since 1954, with Joe Patencio and Biff Andreas being the last men to serve on the council, in 1953.

Following the election Monday night, the old council will gather at the polling place — the old bureau office at the mineral bath site — to canvass the vote, and the newly elected council will go into session Tuesday afternoon.

Eisenhower, Macmillan Talk Slated for Maryland 'Camp'

WASHINGTON — UPI — The White House announced today that the Berlin crisis conferences between President Eisenhower and British Prime Minister Harold Macmillan will be held at Camp David, in the Catoctin Mountains of Maryland.

Macmillan will arrive in Washington next Thursday.

WHITE HOUSE PRESS Secretary James C. Hagerty said the President, Macmillan and their immediate staffs would go to Camp David the following day. They will confer at the secluded White House retreat Friday, Saturday and Sunday.

Hagerty put no date for ending the Big Two conference despite the British announcement Wednesday that the talks would run through March 24.

HAGERTY DID NOT know whether Secretary of State John Foster Dulles, under treatment for cancer at Walter Reed Army Medical Center, would be able to attend the Camp David conferences. Hagerty said, "I hope so," but would not go beyond this.

Desert Sun Clinic

Traits of 'Good Salesman' To Be Analyzed Monday

SEE QUESTIONNAIRE PAGE 2A What makes a "good salesman?"

That's the question the Desert Sun's Retail Sales Clinic will endeavor to answer for attendees at the symposium's initial program at 7:30 p. m., Monday, in Palm Springs High School Auditorium.

Morris I. Pickus, president of the Personnel Institute and originator of the clinics several years ago, said that a series of five films which will be presented in conjunction with the clinic in detailing the "desirable traits" of salespeople.

A QUESTIONNAIRE, conducted on a nationwide basis by the Research Division of Pickus' Institute, listed 10 desirable traits. The 12,375 persons who answered voted predominantly in favor of four main factors.

Listed, in order of their importance to the buyers, were:

—Ability to understand customer desires.

—Courtesy and patience in dealing with customer.

—Friendliness of manner.

—Ability to help customer buy to the best advantage.

The other six traits, all of them of some importance, ran well behind the four factors specified and moved Pickus to make some drastic indictments.

"The sales people in the retail stores of this country," he said, "are doing a poor, ineffective and mediocre job."

THE FILM SERIES that will accompany Monday's seminar at the high school seeks to explain some of the major areas of sales deficiency.

Suggestion — Selling, elimination of "pushiness" and other vital areas of sales are highlighted in the films, produced at a cost in excess of \$100,000.

Following the presentation of the film, a group of business experts will attempt to relate the message of the motion picture to specific selling jobs faced by Village sales personnel.

THE ENTIRE PROGRAM, offered at no charge, has been brought to Palm Springs by The Desert Sun as a means of bringing new vitality to Village business firms.

All Palm Springs business persons, actively engaged in any avenue of selling, are invited to attend, Pickus said. Admission is by ticket with the tickets available for the asking at the offices of The Desert Sun in the Center.

The 23rd Annual Desert Circus, scheduled to hit town on April 1-5, will accept applications for aid at the Desert Circus offices in the Desert Inn grounds or at FA 4-2749.

Hitchhike Costs Oregon Youth \$13, Slugging

An 18-year-old hitchhiker from Portland, Ore., was threatened with death, robbed \$13 in cash and abandoned by two young motorists near Thousand Palms late last night.

The hitchhiker, Robert Leroy Knudson, told Sheriff's Deputy Wally Jenks that he was picked up near Beaumont by two blonde men who spoke with "pronounced German accents."

Knudson said the driver stopped the car at the Rio Del Sol Road turnoff near Highway 99 and told him he'd be killed with a switchblade knife unless he turned over his cash.

After taking \$13 from Knudson's wallet, the two slugged the youth and sped off towards Palm Springs in a pink-over-white 1956 Ford coupe. Abandoned on the highway, Knudson flagged down a passing car a few minutes later.

The youth said he was hiking to visit relatives in Baytown, Tex.

Man Escapes As Auto Dives Off Highway

Construction worker Alvin Simpson spent a lonely, chilling night in the desert last night after his car hurtled off a steep Highway 111 embankment and tumbled several hundred feet down a dry wash.

California Highway Patrol officers said Simpson was heading towards Banning when, he reported, he saw "two sets of headlights" coming at him head-on. This was at 7 p. m.

SIMPSON, 32, of 443 South Calle Santa Rosa, said he swerved to avoid a crash. His car hurtled off a 25-foot embankment, tumbling end over end across the boulder-strewn desert, patrol officers said.

Simpson was thrown clear of the somersaulting auto and officers said car seats and parts were scattered for 100 yards around the demolished vehicle.

DAZED, BRUISED and shaken, Simpson crawled back to the mangled auto. He stayed there until his car was spotted by passing motorists shortly after sunrise this morning.

Still numb with cold, Simpson was put to bed at Desert Hospital a short time later.

HOUSE PASSES HAWAII BILL

Bond Failure In '58 Held Costly Now

Same Bond Measure Up by Two-Thirds, Says County Planner

The loss of the \$5 million building program bond issue by the County of Riverside last year will now cost the county's taxpayers about \$15,000,000.

This statement was made by County Planning Director Tyler Suess, speaking before the Palm Springs Real Estate Board this morning at Uncle John's Pancake House.

"And," said Suess, "this does not include the cost in loss of time due to inefficiency caused by poor quarters at the present time."

ALL WAS NOT black in the report made by the county planner. He reported that his department was making tremendous plans in zoning and building codes, in studies of master highway plans and in population projections.

He reported that the county of Riverside will grow to a total of more than 850,000 population by 1970, even though experts have said the population will not reach this figure until 1980.

"We have always been short on our projections," said Suess, "and in lieu of the studies I believe that this county will have a population of 1,000,000 persons by 1980."

SUESS REPORTED that the Planning Commission is presently working on two huge recreation centers — the Salton Sea and the Colorado River. One of the major projects is a plan to build a 70-acre park and marina on the Colorado River, Suess said he hopes to get the Board of Supervisors to purchase the acreage for the development.

The planner said that his department now has an office in Palm Desert to which desert area residents can go for help.

County planning personnel have already begun a complete general master plan for the Coachella Valley and hope to have it ready for public hearings by the end of the year.

HARPO'S NOT IN TROUBLE with the Palm Springs Police Department, but Motor Officer Bob Sandeffer had to use a little restraint when Police Clerk Michelle Ailor went by Marx' house this week and asked the funnyman to appear in the Palm Springs Police Show, scheduled for March 21 in the Palm Springs High School "quad." The zany Marx brother took one look at Mrs. Ailor and wanted to start the show on the spot. Sandeffer calmed the comic down, won a promise he'd appear at the benefit show, and removing the handcuff from Harpo, escorted the pretty blonde clerk back to the station. "Who could say no?" chortled Harpo. (Police Department Photo)

STORM 'CLOBBERS' OHIO, MOVES INTO NORTHEAST

United Press International

A fast moving snow storm "clobbered" the Ohio Valley with up to nine-inch accumulations today and weathermen warned of heavy snow during the day in New York and Pennsylvania.

Heavy rains and tornado winds swept the southeast as colder air pressed southward. High winds demolished two "mature" warehouses at Burns, Miss., while nearby, 150 children and their teachers huddled in a corner of their school as the winds "roared like a tornado" raced by. No one was injured.

THE SNOWSTORM moved northeastward through the Ohio Valley during the night. The Chicago Weather Bureau reported the storm was "clobbering Cleveland, Ohio," with six inches of snow on the ground early today.

The New York Weather Bureau issued a special bulletin warning the storm would deposit heavy snow in Pennsylvania, most of

New York state, Connecticut and interior portions of New Jersey.

The prediction called for four to six inches of snow in the area and up to eight inches at higher elevations. Hazardous driving conditions were expected in the storm belt.

SNOW DURING the night occurred through the Ohio Valley into the East Coast. Four or more inches were reported in southern Illinois and Indiana. Zanesville, Ohio, got nine inches, the heaviest snowfall since 1950.

At least four deaths were blamed on the storm, three in Ohio and one in Indiana. Two persons died Wednesday at Cincinnati while shoveling snow. Two

others were killed Wednesday in traffic accidents on slippery highways.

UP TO SIX INCHES of snow fell overnight in western Pennsylvania's Bedford County, causing a rash of skidding accidents. At Boyers, Pa., 100 firemen were hampered by snow in fighting a \$75,000 fire that destroyed a church.

Authorities reduced speed limits to 35 miles per hour due to snow along the Pennsylvania Turnpike from the Sliding tunnel westward.

Roads in most of Indiana were reported snow-packed and slippery. In addition, minor floods developed along the White and Wabash rivers in Indiana, hit by multi-million-dollar floods in January and February. The rivers were expected to climb slightly above flood stage at Covington, Terre Haute, Evansport and Petersburg.

THE NINTH Annual Convention of the Western States Advertising Agencies Association will be held on April 23-25 in the Oasis Hotel here, it was announced by the organization today.

The association has held its conventions here during past years and anticipates virtually a total turnout of its membership for the meeting. Some 34 ad agencies have already indicated they will attend, the group said.

Service Sought

Urging approval of additional airline service for Palm Springs, City Attorney Jerry Bunker and three local representatives yesterday appeared at a Civil Aeronautics Board hearing into the future air needs by the Pacific Southwest.

Bunker, along with Acting City Manager Shelby Langford and Francis Crocker, attended the meeting which started Tuesday.

DESCRIBING PALM Springs as a city of phenomenal growth through adequate air transportation, Langford told CAB Examiner William F. Cusick that the greatest number of Palm Springs visitors come from the Pacific Coast.

"As a result," he said, "the city's greatest need is for direct service to metropolitan centers such as San Francisco, Seattle,

and Portland on the west coast."

Testifying to the growth of Palm Springs, Francis Crocker, California Electric Company manager, forecast that the city would have a population of 70,000 persons by 1970.

DESCRIBING A SURVEY of air transport needs of Palm Springs, the city's special economic consultant H. C. Timberlake said:

"Insofar as Palm Springs' keenest air transport needs are concerned, figures how the necessity for more direct, more convenient transportation to and from San Francisco in order to make it easier for prospective guests and visitors from San Francisco, and all the way up the west coast to Alaska, to come and visit us in Palm Springs."

Statehood Now Assured For Islands

Eisenhower's Signature Is Certainty

WASHINGTON (UPI) — Statehood of Hawaii now final congressional approval today.

The House passed and sent the statehood bill to the White House less than 24 hours after it cleared the Senate.

With President Eisenhower's signature a certainty, the House action signaled the historic end of Hawaii's 40-year battle for statehood.

HAWAII WILL BE the 50th state. It probably will not actually enter the union until sometime next fall.

Alaska was admitted as the 49th state Jan. 7, as a result of legislation enacted last year.

Final congressional approval came off the second day of House debate before the jam-packed galleries.

The Senate approved the statehood bill Wednesday on a 76-16 roll call vote.

IT WAS THE fourth time the House has passed a Hawaiian statehood bill since the first statehood measure was introduced in 1919. Previous measures had failed to win approval of both the House and Senate.

Today's House action finally assured statehood for the cluster of mid-Pacific islands which form the nation's chief defense bastion in the Pacific.

The news that Congress had finally passed the bill was the signal for jubilant Hawaiians to begin a two-day celebration.

THE PLANNED festivities included Hawaiian hula dancing and a typically American fireworks display.

The statehood bill provides for elections in Hawaii at which the Hawaiians will ratify statehood and elect two senators and one representative.

The new additional lawmakers, who are expected to begin their service at the opening of the second meeting of the 86th congress next January, will boost the membership of the Senate to an even 100, a record high number.

WITH HAWAII'S new representative, the House temporarily will have a record high 437 representatives. This number will be cut back for the 1962 elections to 435, after the new population census is taken.

House membership is permanently fixed at 435, but Alaska's admission to the union has temporarily increased it to 436.

The Senate's 100 members will be permanent.

VENUS LOVE TRYST WITH MAN-IN-MOON EYED BY VILLAGERS

Village stargazers were treated to a strange celestial romance last night when the planet Venus appeared to cuddle in the lap of old man moon.

In fact, hundreds of thousands of Southwestern residents, scattered from California to Texas, apparently saw the once-in-a-lifetime phenomena.

The planet appeared shortly after sunset as a bright light off the right side of the moon. It was clearly visible over Mt. San Jacinto.

Viewers in Palm Springs, Texas and even Oklahoma said they spied the heavenly romance. Some said that Venus perched on the tip of the quarter-moon. Others said it bounced up and down.

Many persons thought it was a Russian satellite and some stargazers here thought it might be another flying saucer.

Saund Launches Congressional Aid for Vegetable, Fruit Growers

Congressman D. S. Saund today said he has launched Congressional action aimed at the rejuvenation of dwindling early fruit and vegetable crops in the Coachella and Palo Verde Valleys.

The Congressional representative from the 29th District, said he has introduced a resolution requiring the Tariff Commission to study the effect of imports on these desert area industries.

SAUND CHARGED that heavy imports have encroached on West Coast produce markets, virtually liquidating the once vast Desert fruit and vegetable crops.

"For many years I have been distressed by the dwindling away of the early fruit and vegetable industry in the desert areas of the 29th District," he said.

Saund recalled that early watermelons, cantaloupes and tomatoes "were among the best money crops of Imperial Valley." The same applied to squash and other crops in the Coachella and Palo Verde Valleys, he said.

IMPORTANT LAND improvements, better fertilizers and insecticides coupled with the tremendous population growth in these areas should have made the desert "a golden spot of truck farming," Saund pointed out.

"But the opposite is true," he asserted. "Vegetable growing is vanishing because the market has been taken over by imports grown under cheaper labor, land rental and growing conditions."

SAUND FEELS that "it is high time" for aggressive action from Imperial, Coachella and Palo Verde Valley vegetable growers.

Saund said he introduced a Congressional resolution requiring the

U.S. Tariff Commission to study effect of importations on the early vegetable and fruit industries in these areas.

He said his action has won pledges of "enthusiastic support" from Congressman Wilbur D. Mills, chairman of the House's powerful Ways and Means Committee, and Cecil R. King, of Los Angeles, ranking California member of this committee.

Introduction of the resolution, Saund reported, will result in hearings and studies by both the Administration and the Congressional Committee.

Mrs. Herbert Esbitt, carnival chairman, said Guild members are putting the finishing touches on food and game booths for the carnival scheduled to run from 5 to 10 p.m., Friday, on the junior high campus.

All carnival proceeds will be used for school projects, Mrs. Esbitt said.

Oil's Centennial

NEW YORK (UPI) — The U.S. oil industry — now a multi-billion dollar operation — celebrates its 100th anniversary this year.

The first oil well on this continent was brought in on Aug. 27, 1859, at Titusville, Pa., by Edwin L. Drake, a conductor for the New Haven Railroad. The first of America's "gushers" was brought in in 1861.

Prospects For Granting Statehood
To Hawaii Improving in Congress

Despite the recent admission of Alaska into the Union as the 49th State and the wave of popular acclaim which followed the action and its completion, there still seems to be a considerable number of members of Congress who oppose granting the privilege of Statehood to Hawaii.

That the people of the country as a whole are preponderantly in favor of Hawaii becoming the 50th State has been repeatedly demonstrated on many occasions and in many ways.

For more than a generation delegations and representatives chosen by the citizens of Hawaii have appeared at each session of Congress and pleaded to be admitted as a State, but without avail.

Usually the Bill for Statehood has been bottled up in committee, tabled, pigeon-holed or otherwise sidetracked from reaching the floor by contrary legislators skilled in the ways of preventing measures they oppose from being brought to a vote unless certain of their defeat.

This year, however, it appears that there is sufficient strength among con-

gressional forces favoring Statehood for Hawaii to bring the matter out of committee and to an open showdown on the legislative floor.

While the customary oratorical pyrotechnics of the opposition are likely to again be touched off, the display is not expected to be as prolonged or effective as in the past. Many of the die-hards of former years have been replaced by members of opposite views. This coupled with President Eisenhower's repeated requests that Hawaii be permitted to become a State, and the new "closeness" felt for the Island Territory as a result of its bravery, loyalty and suffering in World War II have combined to win much greater congressional support.

Indications now point to final success this year in the long campaign of Hawaii to be granted the privilege of Statehood, with a rousing ratification by the American citizens of the popular islands and a splendid new example given to the world at large of the growing strength, progress and unity of these United States as we proudly place the 50th star in the blue field of our beloved "Star Spangled Banner."

The Overloaded Lap of Federalia

WASHINGTON, D. C. — Louis Miriani, the hefty Mayor of Detroit, came to testify before the Senate Banking-Currency Committee with a quip on his lips. Mr. Miriani was talking about the financial problems of American cities, and he said:

"You probably have heard the story about the executive who had a special file into which he dumped material dealing with difficult problems. The file had a label on it which read:

"I hope God makes these go away."

BUT WHEN the Mayor went into his testimony which favored the \$300 million Area Development bill by Senator Douglas, he turned out to be saying about his problems:

"I hope the Federal Government makes them go away."

Several other Mayors and some Congressmen came with the same list of urban hardships and the same desire to "dump them in the lap of Federalia. The stories are much alike. All of them evoke sorrow and regret. For the many years both population and industry have been leaving the cities for the surrounding suburbs and countryside.

MANY BUSINESSES with old equipment have become unprofitable. Automation, which is the latest wrinkle of the industrial revolution, permits the sleek machinery to do the work of many human hands. People are out of work. Mayor Miriani thinks he sees a solution in the Douglas bill which would, in effect, hire the unemployed with Federal funds to rebuild the cities. Mr.

Miriani told the committee: "We either provide jobs or we provide public assistance. . . it is as simple as that."

But these either-or propositions are very poor logic. Surely, the first mistake in the minds of the Detroit Mayor and of others like him is to assume this is a modern, urban problem. It is not. The problem of food, shelter and livelihood is timeless and universal. The conditions in Detroit with an alleged 12 per cent of the work force idle are almost heavenly when compared with conditions in non-American cities of the world.

OUR COUNTRY knows nothing of the filth, the famine, the suffering of the working classes, the brutality and venality of the rulers which have existed throughout history and which persist today in nearly every nation except our own. It seemed to me unfortunate for Mayor Miriani to close his testimony with the quotation "Let them eat cake," and with the implication that this would be the attitude of Congress if it rejected the Douglas bill.

Another mistaken idea is that only Federal make-work or Federal hand-outs can help the jobless. This country was founded by immigrants. Our greatness is the result of restless, dissatisfied persons on the move. Any policy which pins down the population to these "distressed areas" would be a self-destructive one.

THE CLASSIC behavior of the industrial revolution is to produce fewer unskilled jobs but more highly skilled jobs. Adaptability is the big need. Human

beings very much like ourselves have learned to live on volcanic slopes, behind ocean-holding dikes, in the Dead Sea valley and on the rarified peaks of the Andes.

The task of our leaders, all of them eager volunteers for their offices, is to find a way to live in our privileged American environment. As the author of this bill, Senator Douglas, himself a professional economist, hasn't begun to earn the salary and the respect which the country is paying him. The same thing goes for the 34 other two-party Liberals who have co-sponsored this defeatist, inflationary and unimaginative measure.

THERE ARE TWO other distressed area bills, one by Senator Scott and one by Senator Dirksen, the last being endorsed by the White House. Each is more moderate than the Douglas bill, but all have the fallacy of Rob-Peter-Pay-Paul, as well as the familiar virus of empire-building.

If a distressed area bill becomes law, we will have a white-collared Administrator to sit under a chandelier in an impressive public building. The Administrator will never save the cities. He will never quell the mysterious tides of economic dynamism. He will never give people a satisfactory measure of work, leisure and recompense. All we can be sure of is that the National Debt and the cost of living will rise, and that the Administrator's staff of Federal workers will grow and grow.

'Don't Call Me Conservative—It Ain't Popular'

This Side

The voice of experience. Men, don't take a chance. This week

Sequester your favorite pants. Now, you take that word "sequester."

Mr. Webster, in his book in which one word leads to another, gives it two meanings. One, which he classifies as archaic, means to seclude, withdraw.

The other, which he terms "law" he defines as to seize or hold until the time of pre-emption.

RIGHT NOW I am interested only in the archaic definition—to seclude. To forestall the attempt to pre-empt.

That's because next Saturday, March 14, the Guild of St. Paul's in the Desert, Episcopal Church, stages its annual Rummage Sale, the Rummage Sale to rummage all sales. Mrs. C. Ron Ellis is in charge.

Things really move at these sales. EVERYTHING GOES. But I am interested right now only in issuing a warning to the male species.

If you have a favorite pair of shoes, a hat, slacks, coat, anything you like especially well. Something that slips on with the least discomfort, feels great — but is slightly dilapidated in the opinion of your wife—sequester it.

Or she will.

CAN RECALL in the old days when I used to wear hats. I had one I thought was the ultimate in deigneur. Guarded it carefully.

Then when the Guild was staging its annual Rummage Sale, they offered a hat at auction. And the bidding went up and up. I was delighted because the work of the Guild was to be augmented by the price paid for that hat.

Until I took a second look. It was MY hat which Mrs. G. had snatched from its hiding place in the loud speaker of the radio and given to the Guild to sell.

So, do you see, men, be alive. Anyway, it's all for a great cause. So if you do lose your pants or hat, etc., etc., go up to the Rummage Sale Saturday at the Church, 125 West Alameda, and buy 'em back. It may cost you but it will be worth it.

IT'S IT'E AGAIN to think about a recreational activity which once was a leading one in these parts.

That's bike riding. Can recall when every weekend, and during the week, too, you'd see visitors, in shorts and casual attire, pedaling up and down Palm Canyon Drive.

Cycling still is a great recreation for many people. But with the present day traffic, where can they go?

Perhaps, with all of the other plans for the great growth of the area—and not to lose some of our former pleasures—council and the planners could give some thought to bike paths for the visitors who want to live the simple life in the sun.

WELL, IT'S TIME to haunt the post office. To watch the incoming mail. For tomorrow is Friday, the 13th, and I cannot write one of these pieces.

Mrs. G. promised—so I'll be seeing you Saturday.

—George Laine

STAN DELAPLANE'S
Postcard

I sat holding my toothache and having my shoes shined in the Casio airport the other day. The shoe shine boy had a hammered brass stand that shone like gold.

When he finished, he reached down and tripped a lever and a bell rang. Finish. The sound hit my tooth and went being-boing off the roots of my hair.

YET MIRACULOUSLY, when he KLM Constellation climbed up over the sparkling blue sea, the ache disappeared. It was like magic. I gave it a tender touch with my tongue. Nothing.

On the second day in Rome, however, a suspicious feeling returned. And so with reluctant feet to Dr. Pio Lalli in Piazza San Bernardo.

"NATURALLY," said Dr. Lalli, "when you rise in the airplane, the pressure is changed. So the tooth improves. Do you feel that?" he said, tapping.

"YEEOW!" "Tender," said the dentist. "We must open it up," he said, turning to his table and rattling the silverware. "One of your people from Holiday magazine came to me for treatment. When he got home, his own dentist could not believe how well it was done."

"WE WILL JUST open it up," said the doctor, turning back. "We will — where are you?" "Up here," I said weakly.

"Come off the chandelier," said the doctor. "It is a valuable antique."

"I am trying to get altitude. Changing the pressure."

"COME, COME," said Dr. Lalli. "I am a gentle person."

He dabbed around a little and advised me to chew on the other side. "The Italian bread is hard."

"But the spaghetti is soft, Doctor."

We shook hands and hoped to meet under some more favorable circumstances. I hope so.

AH, ROME, in he early days of spring. In the morning, we sit at the sunny tables outside Doney's and check the action

passing into the swank Excelsior.

The carabinieri go by in pairs. In that slow, half-time step, their silver swords held in the left hand at the same precise angle. Their blue uniforms reflecting the spring sky.

We drink the chocolate cappuccini and eat the tasty, crusty rolls. (Being sure to chew on the other side. What a gloomy, aging thought!)

THE TABLES OUTSIDE Doney's are better for viewing the world than the more famous Cafe de la Paix in Paris.

There is a parade of ex-royalty and movie stars. Sleek ladies with sleek dogs. Muscular young men on the muscle.

At the end of the street rises the brown and ancient Roman wall. And through the portals pass the pop-popping scooters in the wind.

SPAGHETTI is a soothing dish for a man who is apt to chew on the wrong side when distracted. "Spaghetti must be cooked al dente—to the tooth," explained the waiter at Giovanni's. When you bite it —

"Please," I said shuddering. "When you bite it, there is a feel. You know it is cooked. If you bite it and find inside in the center a little white spot, cook it some more."

I THINK the pleasantest thing about Rome is the waiters. If he knows you, the Italian waiter shakes your hand. He seeks just the right table for you. He advises your meal. He brings materials from the kitchen for you to see.

This is very important to international relations. Who do you meet mostly on your journeys? Waiters. The constant ambassadors.

"The tooth hurts?" said the waiter at Giovanni's. "In Italy we have a cure that is better than the dentist."

It turned out to be a light, ruby wine from the Piedmont. And it went very well with the spaghetti. Al dente.

EARL WILSON:

Old Ohio Boy Keefe Brasselle

NEW YORK — Another one of our Ohio boys, Keefe Brasselle, from Elyria, Cleveland and such places, has gone and done us proud on the Saloon Circuit.

You'll remember when Keefe played Eddie Cantor's life story in Hollywood. Then he married Arlene DeMarco of the singing DeMarco Sisters.

He showed up the other night at the Latin Quarter as a singer, dancer and comedian and was the surprise of the year.

For example, he said you don't have to have a voice today to be a singer. You have to have a gimmick. You take Billy Daniels, he said. Billy has the itch. If you've noticed Billy scratching himself, practically, you know what Keefe means.

Keefe looks like a young Cary Grant or an old Eddie Hodges. He sang a song to his mother-in-law and he also mentioned that he was appearing in a "psychological western" on TV.

This psychological western concerned a Texan, she's enough, who had 10,000 oil wells giving milk, and 10,000 cows giving oil. The problem is, he said, "How do you milk an oil well?"

Zsa Zsa Gabor threw a loud, screaming tantrum at a Steve Allen TV rehearsal — claiming Steve's writers weren't giving her enough laughs. They patched it up for the weekend show. A reporter said, "I guess she'll never be on Steve's program again?" And a spokesman answered: "That is an understatement!"

Beautiful actress Gloria Grahame, recently divorced from Producer Cy Howard, is back in circulation again after finishing her "Odds Against Tomorrow" picture—and is dating Cy Howard. . . . Mayors' told Dagmar she's got digestive tract problems. So she's off to Florida to rest a month. . . . Don Ameche sailed on the Christopher Columbus for a vacation in Italy. . . . Although Frank Sinatra and Sammy Davis Jr. are feuding, when it looked like Frank might be late for his Fontainebleau show in Miami, somebody asked Sammy if he'd sub. "I'd love to," replied Sammy, at the Eden Roc. "Then maybe he'd like me again." (Frank spoiled it by showing up.)

Comedian Jack Waldron was telling the Lambs about his date-breaking girl friend: "She stood me up more times than 'The Star Spangled Banner.'" Jack says the shortest business conference he ever held in his years in Show Biz was with Al Capone in Chicago. "Al threw me a cigar and said 'Anybody bodderin' ya?' I said 'No.' He said 'Dat's all kid beat it.' I was O.K. with the mob."

Rocky Graziano decided not to take any acting lessons for the ABC TV "Naked City" episode he's doing next month. "I went to one of them dramatic schools once but I found out they talk just like me so why 't'ell should I go?"

He asks . . . Orson Bean got the psychiatrist role in "Anatomy of Murder." He says: "I finally get to go on location—and where? Paris, Cannes, Venice, Tokyo? No, to Ishpeming, Mich.!"

Dom DeMaggio, who with his brothers rebuilt their San Francisco restaurant, told me in Toots Shor's, "Toots is now telling me how to run a restaurant. Which isn't surprising. Because when I was playing baseball, Toots told me how to play baseball."

On the theory that more people would attend the theater if they knew something about it, the Toledo Summer Theater Association—which is backed by local businessmen—is currently trying to build future audiences by bringing good, free theater to Toledoans.

Their first step has been to hire two New York actors, John Aronson and Mary Rose McMaster, who will present scenes from five well-known comedies in Toledo schools and clubs in April. The comedies will then be produced in Toledo during the summer.

WISH I'D SAID THAT . . . Remember when a wife used to ask her husband what he'd like to eat, instead of where?

TODAY'S BEST LAUGH . . . Some ball players who've signed their team contracts are still hold-outs—demanding more money for TV razor commercials.

Al Alberts tells of the soft-hearted witch doctor who makes voodoo dolls of his enemies—and sticks 'em with safety pins. That's earl, brother.

MIKE CONNOLLY:

Saddest Line of Dialogue

HOLLYWOOD — Marilyn Monroe just finished a movie about an all-girl orchestra, United Artists' "Some Like It Hot," and now Fox is form-fitting a screenplay about the leader of an all-girl orchestra for the gal who succeeded Marilyn in the blondes throne at Fox (previous occupants: Alice Faye and Betty Grable). Jayne will wiggle her way through "The Ina Ray Hutton Story."

Saddest line of dialogue of the week was that assigned to Debbie Reynolds for her romantic wrap-up scene with Bob Wagner in "Say One for Me." As the girl spurned by Wagner, Debbie's dialogue sounded like something out of her own marital shipwreck: "You're tossing me over — me, the girl who always got what she went after!"

THERE'S MUSIC in the air at Warner Bros., where they have n't made a big musical for several years. The Burbank studio just signed a Presley-type pop singer, 24-year-old Bob Conrad, who was driving a truck for a living in Chicago three years ago, then gave up trucking in favor of hopping.

Add Bustups: Brigitte Bardot broke up with her best friend, Sascha Distel (tossed him AND his piano out!) and Ava Gardner got rid of Walter Chiari in Australia. The Italian actor flew "furioso-con-fuoco" all the way back to Rome, leaving Ava beached Down Under in "On the Beach" with Fred Astaire and Tony Perkins.

MISS GARDNER, incidentally, having established herself at long last as a legal resident of Spain, will bank ALL her "Beach" boodle — \$400,000. No U.S. income tax, since she no longer lives here.

Jerry Wald turned all of his comical correspondence with Rona Jaffe, author of "The Best of Everything," over to a national magazine. Wald got cold feet at the last minute over the wild & wacky wordage, in which he and Miss Jaffe exchanged heated words on how the movie based on her best-seller should be shot, so the publishers post-hasted it pronto back to the producer.

OTTO PREMINGER retained the same barrister who secured Debbie Reynolds' SOLID settlement and divorce from Eddie Fisher to arrange for his own divorce-by-default from Mary Gardner Preminger. Otto also asked the attorney to arrange for a "quiet" property settlement — meaning no publicity.

Leslie Caron finished shooting "The Man Who Understood Women" and is clamoring for "Colombe," Jean Anouilh's story

about a female heel, for her next movie. But Arthur Freed, her "Gigi" producer, has decided he wants her for "Strategy of Love." Arthur tells me it's about the various ways of winning a woman. It's an original comedy by Peter Viertel, who won Deborah Kerr away from Tony Bartley — and who should know better than Pete?

Gene Kelly puts it this way: "So a buck isn't what it used to be. Are you?"

CHANNEL CHATTER — Gene Kelly's Pontiac spec will be "something like Fred Astaire's" — and that should be good enough for anybody! Astaire is to Kelly what Crosby is to Sinatra: "The Greatest."

Playhouse 90, still going "way out for 'unusual subjects,'" bought a script called "Lonely Expectations" in which Diane Baker and Carolyn Kearney will play unwed mothers.

All isn't as rosy between Ronnie Burns and Judi Meredith on The George Burns Show as the NBColors' rosy hues would have you believe. Ronnie, I'm told, won't jog his dad's nightclub act in Las Vegas this summer if Judi goes along. It's said that the feud started because both young players thought the other was getting the best of it as far as closeness and dialogue were concerned.

BILL BISHOP burles: "Hollywood is a place where you can be unknown one day and even MORE unknown the next!"

Hal Wallis, anxious to avoid any repeat of last year's unglamorous she - made - her - own - gown publicity (and that's just what Oscar - winning Joanne Woodward did!), ordered Paramount's Edith Head to whip up something glamorous for Shirley MacLaine to wear on the April 6 Oscar telecast. And Hal himself is paying for the dress his contract player will wear — a bonus to Shirley for turning in a fine job as the alcoholic blonde babe in "Career."

DEAN JONES, new young star of MGM-TV's new young-love series, You're Only Young Once, tells me: "I'd rather be in show business worrying myself to death over whether a new series will make or wreck my career than in some other pursuit of the dollar, dying of boredom!"

Lisa Gave, Debra Paget's kid sister, finally gets her career off the ground as the leading lady (opposite Joe Maross) of MGM-TV's new series, Airborne.

Yep, that'll be Julie Payne, daughter of John Payne and Anne Shirley, making her acting debut on her dad's April 6 Postless Gun segment — but as a deaf mute.

Jazz Impressions of Eurasia

Jazz Impressions of Eurasia, The Dave Brubeck Quartet. Columbia. \$3.95.

One major U.S. weapon in the cold war struggle against Communism has been the music of this nation. With so much of the world being fed the Soviet propaganda that America is a nation of rock and rolling drug addicts and hoodlums, the State Department has been sorely tested to offset that type of thinking.

Best method has been by sending organizations that are purely musical and purely American into various hotbeds of anti-Americanism. Where Dulles drew boos, Dizzy Gillespie charmed the natives. Where Nixon drew stones, Louis Armstrong gained cheers.

ONE OF THE MOST interesting of these State Department experiments involved the sending of the "Intellectual jazzman" abroad and one of the most successful of these has been Dave Brubeck, together with the members of his quartet.

This album is a kaleidoscopic glimpse at the itinerary of the Brubeck Quartet in its tour—for

the United States — of Eurasian nations. And it indicates that the tour did more than provide thousands of Central European, Middle East and Asian listeners with an in-person listen to the significant musical message of the quartet. The Brubeck force also profited mightily.

MOST OF THE past criticism directed at Brubeck, his alto playing right-hand Paul Desmond, and at whoever and whatever jazz musicians Dave gathers about him, has generally devolved into a castigation that Brubeck always finds the same groove, that he denies his group a chance for change and even for expression. The criticism has been well-meant and often well-taken in the past but it doesn't apply in "Jazz Impressions of Eurasia."

There are six selections on the LP, all of them bearing the signature of Brubeck. They all take their initial idea — their integral feel — from the music of the area that Brubeck is being impressed with at the time.

NOMAD HAS a sort of inten-

tal flavor about it, utilizing three against fours to achieve an "Eastern jazz" mode. Bach fills a major role, applying a counterpointing theme and rhythm for Brandenburg Gate. Turkey is represented with The Golden Horn, in which Brubeck writes himself all but out of the selection and creates a setting for altoist Desmond. Paul responds with a rousing exhibition of improvisational technique, indicative of his continuously superb standards.

In Thank You, Brubeck borrows some Chopin figures to salute Poland with great effect, utilizes some English folk music patterns in developing Marble Arch and again wades into the Oriental pattern with Calcutta Blues, in which drummer Joe Morello rejects his sticks for a more comfortable, more authentic pair of fingers in beating an almost tabla-like tempo. Bassist Joe Benjamin, an ex-Mulligan affiliate, is tremendously effective in the Indian - motivated number.

Summary: Jazz at its thought-provoking best, rendered by one of the most knowledgeable of all jazzmen.

ARTHUR MURRAY NEVER taught dancing like this old Indian two-step, being demonstrated by young "squaws" in the fourth grade class of Cielo Vista School. The fourth graders demonstrated various songs, dances and customs of early California Indian tribes in a special program for their parents. The program served to display their knowledge of Indian lore, resulting from classroom studies. (Desert Sun Photo)

'Driving Takes Seeing' to Be Safety Theme

"Driving Takes Seeing" will be the theme for National Save Your Vision Week, March 15-18, which will be sponsored locally by the Palm Springs Safety Council and the California Optometric Association, it was announced today.

"Nearly 22 per cent of all licensed drivers have uncorrected acuity defects which could lead to death or disaster behind the wheel, and millions are unaware of their shortcomings," Dr. George M. Millie, motorist vision safety chairman, states.

"YET ALL BUT one-tenth of one per cent could have their distance vision for driving brought up to par."

The theme, "Driving Takes Seeing," was chosen for Save Your Vision Week, according to Dr. Millie, so that the safety council and cooperating groups can emphasize through public service activities the five visual skills which affect safe driving.

THE SKILLS WERE listed as:

- Acuity: Ability to focus and see clearly with each eye separately and both eyes together, particularly at a distance.
- Depth Perception: Ability to judge space and distance, the most common deficiency found among drivers.
- Field of Vision: Ability to see to the sides when looking straight ahead.
- Muscle Balance: Ability to point eyes simultaneously and easily at a given object.
- Night Vision: Ability to see under low illumination, against glare and to recover from it.
- Acuity and depth perception, the most important skills, are those which drivers most frequently lack.

service charge and all additional amounts that be charged for such items as insurance, collection costs, official fees and other items.

—Require all contracts in writing—with no blank spaces above contractee's signatures — and details of all amounts. A copy of the contract must be furnished to the buyer under the contract.

—Fix maximum service charges. For unpaid balances less than \$1,000, the amount would be 5/6 of one per cent. For balances over \$1,000, the amount would be 1/2 of one per cent.

—Right of a buyer to pay the entire balance at any time would be guaranteed by the new law.

Jerry Johnson Remains Fire Commissioner

Jerry Johnson was appointed by the Board of Supervisors this week to continue as a fire commissioner for the Idyllwild Fire Protection District for an additional term of three years.

An election for commissioner, scheduled for April 7, has been called off, as Johnson was the only person to file nomination papers for the office. Other commissioners are Jay W. Gifford and Michael Dunn. Fire chief for the district is William Price.

Jensen Named To Safety Post

Undersheriff N. G. Jensen was appointed by the Board of Supervisors this week as a member of the county's Safety Committee.

Jensen replaces Basil Mowrey, recently reired undersheriff, and will represent the large body of employees in the sheriff's office. His appointment to the committee was recommended by Personnel Director Donald Spencer.

Jay Anderson Is Honor Cadet

RANCHO MIRAGE—Cadet Jay Anderson, son of Mr. and Mrs. Tom Anderson of Rancho Mirage, who is attending the Elsinore Naval and Military Academy, was appointed Honor Cadet for a two-week period.

In making this selection, many factors were considered, including his military appearance and bearing, obedience, cheerful performance of duties, courtesy and integrity. He will also receive fire promotion points for this honor.

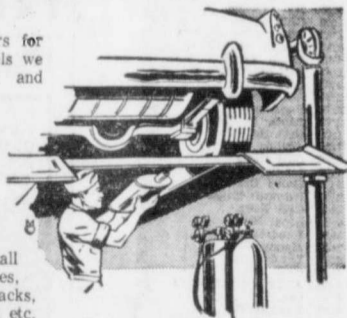

The appointment was made by Capt. H. C. Marr, commandant of cadets. Cadet Jay Anderson is a former Desert Sun carrier and a Star Scout of Cathedral City Troop 81.

Riverside Checks On 'Death Smog'

A new system of measurement to gauge nitrogen dioxide — the killer agent in London and Donora, Pa., "death smogs" — has been instituted in Riverside County, the Air Pollution Control District announced yesterday.

Established and monitored during February, the APCD said that the newly-instituted device indicated that Riverside had a peak reading of 16 parts per million on Feb. 16. In Los Angeles, the nitrogen dioxide averages approximately .30 parts per million.

The Riverside nitrogen dioxide monitor will augment three devices sampling oxidants at Riverside Corona and San Geronimo.

NITROGEN DIOXIDE is a man-made air contaminant produced by combustion processes, open burning and exhausts.

The APCD indicated that it intends to launch a monitoring system to gauge dust, carbon monoxide, sulfur dioxide, fluorides and hydrocarbons, none of which are measured at this time.

THE RIVERSIDE COUNTY APCD indicated that it was concerned with the amount of nitrogen dioxide prevalent in the atmosphere.

"It is very toxic in high concentrations," the district said, "and the district has started monitoring to determine if and when it starts approaching the toxic level."

Record-Equaling Crops WASHINGTON (UPI) — Government officials expect farmers to shuck around 530 million bushels of their 1959-crop corn under Federal shelters by May 31. This would be an estimated 182 million bushel increase from 1957 and would equal the 1948-49 record.

NEW LAW SEEN AS CURB FOR 'TIME-SALES' RACKET

California's berserk "installment selling rackets," may receive a death blow this month when the State Senate votes on a new law that will impose drastic limits on such racketeers, Assemblyman Lee Backstrand reported here today.

The 71st District Assemblyman was one of a majority of the State Assembly which gave the new law a wide margin of approval earlier this month.

THE BILL CAME about after

an Assembly interim committee took testimony throughout the state last year that indicated some retail purchasers were paying twice the value of a given article, paying interest as high as 360 per cent and being bilked by "service charges" of various types.

Backstrand said that the hearings of the interim committee "spot-lighted many of the evils which grew up to plague consumers, as well as ethical retailers, in installment buying."

The new measure, explained by Backstrand, would:

- Define both "cash sale price" and "time sale price" as a basis for determining all "service charges."

Lightweights to Fight Here April 4

Andrade, J. Fullmer Top Card

Lightweights Cisco Andrade and Jay Fullmer have been signed to meet in the first major prize fight ever staged in Palm Springs, on April 4 at the Polo Grounds, James Morton, president of the Desert Circus said today.

The ten-round main event and the remainder of the fight program is being staged in conjunction with the 23rd Annual Desert Circus.

There will also be two four-round preliminary bouts.

Originally, former world's champion middleweight Gene Fullmer was scheduled to fight Franz Zuzina of Germany, the European middleweight champ. However, when Gene Fullmer severely injured his hand in a Madison Square Garden bout on February 20 and found he would be unable to participate, it was decided to present matches featuring his brothers, Jay and Don versus suitable opponents.

ARRANGEMENTS for the bouts are being completed by Roy Strong, Joe Dupler and Rex Thompson, representing the Church of Jesus Christ of Latter Day Saints, and Morton for the Desert Circus Association, with a portion of the proceeds to be equally divided between the two groups.

Villager and former heavyweight champion of the world, Jack Dempsey, has agreed to referee.

Canadian Hockey Team Nears Title In World Games

PRAGUE, Czechoslovakia — (UPI) Canada tackles Sweden today in a world hockey championship game that is expected to be an anti-climax to Wednesday night's Canadian-Russian thriller.

The Canadians, who practically clinched the title by beating the Russians 3-1, were expected to play it "safe and careful" against a Swedish team that may be better than its championship record indicates.

The Swedes lost their last two games by an aggregate score of 11-2. But they were the world champions two years ago and will be out to show that they still can play line hockey.

The American team, which won its second straight victory Wednesday against Finland, will take a well deserved rest. It has played three games in three days, and a coach Marsh Ryman reported the players badly need some time off to rest.

Royal Living Beats Foreign Stars

Closes Winter Season Winning Rich Capistrano

By ALEX KAHN

United Press International

ARCADIA (UPI) — Royal Living was assured of a monarch's share of clover today as he received the acclaim of the racing world for his easy win in the \$116,800 San Juan Capistrano Handicap, which brought the Santa Anita meeting to a close.

In a Cinderella finish to his winter season, Royal Living — which came here a maiden last December—captured one of the nation's top stakes Wednesday. He also stamped himself a cup horse of distinction with his victory over nearly a mile and three-quarters on the grass.

Although there were horses from five countries and four continents in the race, it took a Kentucky-bred son of Hill Prince to pull down first money of \$70,700.

The closing day crowd of 37,250 had installed Tudor Era, the Irish-bred grass racing star of the Florida season, the 9-5 favorite while a South American horse, Anisado from Argentina, was second choice.

But Royal Living's strong finishes in two \$100,000 stakes were not overlooked by the betting public, which made him third choice at 6-1.

Royal Living's time of 2:45 2-3 was a new course record, breaking the mark of 2:46 4-5 set by St. Vincent in 1955.

Tall Chief II, an English horse, made a belated rush to get up for second while Infantry was third and Anxious Moment fourth. Anisado ended up ninth, Tudor Era was 12th and a Japanese horse, Hakuchikara, finished last in the field of 14.

Zcaza Benched For Rough Ride

ARCADIA (UPI) — Panamanian jockey Manuel Zcaza was suspended Wednesday by the Santa Anita Park stewards for five racing days starting March 12.

Zcaza was set down on the final day of the Santa Anita meeting for interference aboard his mount, High Performance, in the sixth race Tuesday when he allegedly failed to make a proper effort to maintain a straight course in the stretch.

Murtaigh Feels Bucs Can Go All of the Way

FORT MYERS, Fla. — (UPI) — Manager Danny Murtaigh feels his Pittsburgh Pirates can go all the way this year if "we come up with a big bat at first base."

He's pretty sure he's going to get it, too, from among Dick Stuart, Ted Kluszewski, Rocky Nelson and R. C. Stevens.

"We need a long-ball hitter at first to make up for the loss of Frank Thomas," Murtaigh reasoned. "There's no doubt we will miss his bat. So I figure whoever wins the first base job will have to plug the gap."

Thomas was traded to Cincinnati along with four other lesser lights for pitcher Harvey Haddix, third baseman Don Hoak and catcher Smokey Burgess.

"We made the deal because we believe we improved our defense, got the left-handed starting pitcher we looked last year in Haddix, and a fine catcher and hitter in Burgess."

The players he is counting on most at first is Stuart, who hit 16 home runs and led in 48 in 67 games with the Pirates last

LAURIE'S, STABLES IN SECOND ROUND AT INDIO TONIGHT

LAURIE'S Steak Ranch team goes into the second round of the Coachella Valley Recreation District basketball tournament tonight against the strong Corona Cooks team at the Indio High gym. The local team won their first round match Monday. Game time is 9 o'clock.

Smoke Tree Stables will meet the H&H Lumber team of Indio at 7:30. Smoke Tree must win to stay in the double elimination tournament.

Coaches Name Three Bears in Coast Top Ten

LOS ANGELES — (UPI) — Three members of the University of California basketball team which won the Pacific Coast Conference championship rated among the top 10 players in the league according to the opinion of the coaches themselves.

Two Cal performers, senior Denny Fitzpatrick, Costa Mesa, Calif., and junior Darrell Imhoff, Alhambra, Calif., won first team places while Capt. Al Buch was placed on the second team.

The coaches chose seven men for the first team, with UCLA's Walt Torrence, Sacramento, the only unanimous selection.

Others on the first team were Doug Smart, the University of Washington, of Seattle, Wash., John Werhas, USC, of San Pedro; Lee Harman, Oregon State, of Angeles, and Paul Neumann, Stanford, of Costa Mesa.

Smart was the only repeater from last year. Torrence led all league scorers.

Only three men were picked for the second team. In addition to Buch, Bruno Boin of Washington and Whaylon Coleman, Idaho, also were on the second team.

Rafer Johnson, UCLA's decathlon star, was given honorable mention. Others also mentioned were Denny Cram of the Bruins; Denny Strickland and Dale Heron of Oregon; John Liveious and Jim Prestel of Idaho; Bill Bloom and Jim White of USC; Dick Haga and John Arrillaga of Stanford and John Morris of Washington State.

Redlands Tennis Clinic Team to Meet Villagers

Members of the Redlands Tennis Clinic and Palm Springs Tennis Clinic will vie in team competition next Saturday morning following the regular two-hour lessons conducted each Saturday for desert area youngsters between the ages of 9 and 14.

The regular clinic will be held from 9 to 11 a.m. and Dave Gilliam, Racquet Club pro and instructor, urged all youngsters between the ages of 9 and 11 to attend this city-wide project.

Following the regular Clinic, a team of 14 boys and six girls from the Redlands Clinic, based along the lines of the local tennis classes, will meet a similar group from the local class. The matches will be played on the high school courts.

The local team and alternates, chosen from competition here the past few weeks is made up of:

BOYS' TEAM

Penn State Wins ICAA Title 11 Days After Meet

UNIVERSITY PARK, Pa. — (UPI) Pennsylvania State University athletic circles viewed with satisfaction today the decision awarding Penn State the ICAA field and track team championship 11 days after the meet was held.

But there was no victory celebration—only the restrained feeling that justice had been done.

Penn State was declared winner over Manhattan College Wednesday in New York by the ICAA executive committee, which ruled in favor of the Nittany Lions' protest to the reversal of the original decision in the 60-yard high hurdles.

Manhattan was awarded the team championship when the revised decision gave the Jaspers' Henry White third place instead of fourth in the controversial finish. That gave Manhattan 21 points to 20 17-36 for Penn State in the meet Feb. 28 at Madison Square Garden.

Penn State athletic director Ernest E. McCoy was in accord with the executive committee's decision Wednesday which placed New York University's Mike Herman ahead of White. The committee dropped Manhattan to 20 points and gave the team title to Penn State.

Pettit Continues Record-Breaking NBA Campaign

United Press International
Bob Pettit continued his fabulous record collection in the National Basketball Association right through the final game of the season.

Pettit's last mark in a bountiful campaign was established Wednesday night when he scored 27 points to lead the St. Louis Hawks to a 132-130 overtime win over the Syracuse Nationals.

The former Louisiana State University star emerged with a 29.2 points per game average, topping the 28.4 previously held by George Mikan.

Dolph Schayes of the Nats also set a record as he played in his 750th game, one more than Arnie Risen. The durable Nat has been in every game for the last seven seasons and tops all scorers with 14,091 points.

IN THE ONLY other game Wednesday night, the Detroit Pistons beat the Minneapolis Lakers, 123-115.

Cliff Hagan was the Hawk hero in the win over Syracuse. Hagan's tip-in of a rebound with 16 seconds left in regulation time tied the score at 121-all and his basket at the final horn in the extra session gave St. Louis the decision.

Schayes was high man for Syracuse with 29 points.

Detroit dominated Minneapolis in the last minute of their warm-up for Saturday night's Western Division playoff opening. A basket by Dick McGuire gave the Pistons a 117-116 lead and then Phil Jordan and Joe Holup each connected with a pair of free throws to sew up the game. Jordan's 21 points were high for Detroit, while Elgin Baylor led Minneapolis with 39.

SACRAMENTO — (UPI) — Irish Bobby Scanlon of San Francisco and Orlando Zulueta of Cuba tangle in a 10-round battle tonight that should increase the lightweight prestige of one of them.

Scanlon won his first 32 fights and beat contender Joey Lopez of Sacramento before losing twice to Paolo Rosi of Italy.

Zulueta, once an unsuccessful challenger for Joe Brown's lightweight title, recently defeated Lopez in the same ring where he will meet Scanlon tonight.

Play Mary Star School in Pair Of Games Here

Palm Springs Indians will probably go into their first baseball game of the 1959 season tomorrow afternoon without the services of Cleo James, star shortstop and already eyed by several Major League scouts.

James has about made up his mind, according to word to Tribe Coach George Scholl to quit school for a job. In the event James is not available, Norman Ruiz will take over the shortstop post.

FIRST GAME of the season is slated for 4 p.m. tomorrow at the Polo Grounds with Mary Star school, from the Los Angeles area, as opponents.

The visitors will stay overnight and play the Indians again Saturday afternoon at the Polo Grounds. Under Riverside County League rules, schools are allowed only two practice games before starting the double-round League season.

COACH SCHOLL will probably start Bobbie Flores in the first game tomorrow.

Joe Lewis will be behind the bat, either Carnett or Tomlinson will be at first base, Burke at second, Norman Ruiz at short, Lennie Ruiz at third and Stan Cirata in center. The other two outfield posts were not announced.

The Indians start their league season against San Jacinto March 31. In the meantime, in the absence of other practice games, Scholl plans several intersquad contests.

DeMarco Starts Comeback Trail With Easy Win

BOSTON (UPI) — Tony DeMarco debated the second step on his comeback today following a TKO victory over little-known Curley Monroe of Worcester Wednesday night.

The former welterweight champ put Monroe away at 1:09 of the eighth round in a scheduled 10-rounder, knocking him down twice along the route. It was the 27-year-old DeMarco's first fight in nearly 14 months, the Boston belter "retiring" after being kayoed by Virgil Atkins Jan. 21, 1958.

It stopped a string of eight straight wins for Monroe, also 27, since last October. Monroe weighed 147½ for the bout, half a pound more than DeMarco.

Legion Birthday Observation Slated by Mayor

Calling on all resort residents to commemorate the 40th anniversary of the American Legion, Mayor Frank Bogert today proclaimed the week of March 15 through 21 as "American Legion Birthday Week."

Mayor Bogert noted that the Legion will celebrate its 40th birthday in the three-day period from March 15 through 17, "marking four decades of patriotic labor by millions who have served in three wars."

The Legion, he said, "has become a bulwark of the nation" under the "high principles which motivate the organization in giving those services to our country that preserve the American way of life."

In issuing his proclamation, Mayor Bogert urged Village citizens and civic organizations to join in paying tribute "to this great veterans' organization."

He directed a special salute to the officers and members of Owen Coffman Post 519 "for their generous contributions to our local civic betterment programs."

Forum to Hear Anthropologist Margaret Mead

Dr. Margaret Mead, famous anthropologist, lecturer and educator will wind up the Community Forum Series for this season when she appears at the Jewish Community Center at 8:15 p.m., Sunday, March 15.

Dr. Dwight E. Twist, superintendent of schools, will introduce Dr. Mead and it is expected that many teachers and educators in the area will be in the audience.

PHILADELPHIA - born Dr. Mead attended Barnard College at Columbia University for her degrees, and besides her Ph. D. she was awarded a number of honorary degrees from other institutions including Wilson College and Rutgers University. At present she is associate curator of ethnology at the American Museum of Natural History.

Among the several expeditions she has made in her research, Dr. Mead studied the peoples on Pacific islands south of the Equator, the Marus tribe in the Admiralty Islands north of New Guinea and several South Sea islands, including Bali. Dr. Mead conducted a pioneering study of the historical contact between American Indians and European cultures, living with an American Indian tribe for this research.

AUTHOR OF nearly a dozen books as a result of her studies, she is considered the outstanding authority in her field by educators. She has given courses of lectures at Columbia University, Vassar College, Stanford and the University of California. She has also lectured in Great Britain and France.

A current project, directing studies in contemporary cultures to the American Museum of Natural History, is evidence of a shift in the emphasis of her interests. Her principal work now is to study present-day civilizations like that of America in the light of the perspective she gained by her studies of small, homogeneous, stable societies, and further to develop cultural theories of human behavior. Emphasizing that anthropology is a "science of clues," she used insights she gained on remote islands to illuminate cultural patterns in European and American countries.

No stranger to Palm Springs, Dr. Mead appeared on the 1957 Community Forum Series.

Tickets for the Forum are available at the Center office or at the door.

Move to Support Dilworth Tax Rate Law Loses

A measure proposed by State Senator Nelson Dilworth which would provide a means for setting a maximum county tax rate was the subject of a heated discussion at this week's session of the Board of Supervisors which concluded with defeat of a proposal by Supervisor Fred McCall and Supervisor William Jones that the board adopt a resolution supporting the bill, the other three supervisors voting in opposition.

The Dilworth proposal, known as Senate Constitutional Amendment No. 8, would give the people the right to present an initiative petition, signed by no less than 15 per cent of the voters, proposing a county tax limit.

THE BOARD OF supervisors would then have to adopt an ordinance in compliance with the petition, or put it to a vote of the people.

Supervisor George Berkey expressed fear that if the tax limit is set and the state continues its policy of making demands for expenditures on programs such as welfare and probation, there wouldn't be enough left to cover the expenses necessary to carry on county government.

HE OBSERVED that it would be easier for the people to "raise a holler or throw the supervisors out of office," than it would to get rid of the proposed law once it is frozen into the constitution.

Supervisor Curtis Chamberlain argued that the proposed law wouldn't be effective. "It wouldn't keep the assessor from reassessing properties at a higher value," he declared. "If we needed more money and couldn't increase the tax rate that's what would be done."

Junior Women Hear of Work Of Institute

CATHEDRAL CITY — Members of the various Women's Clubs in the desert area were in attendance at the Cathedral City Junior Women's Club meeting held at the Town Hall in Cathedral City.

Mrs. Lay, who is president of the Institute, outlined the 11 week summer program of parliamentary procedure and arts and crafts courses being offered for organizational women during the coming summer.

Under discussion were plans for the fourth annual Easter Egg Hunt sponsored each year by the Junior Women's Club, with Mrs. Harry East appointed as chairman.

Mrs. Leon Hand, Mrs. Edward Wills and Mrs. Charles Lamkin were elected to the nominating committee, with elections to be held in April. The next meeting of the local group will be held March 17. Refreshments were served following adjournment.

Supervisors File Planning Report on Church Denial

Noting that Kay Olesen of Palm Desert had voted in opposition to planning commission approval of a permit to establish a church in a residential zone in the Palm Desert area, and Lloyd Loveland of Indio had no cast any vote on the issue, Planning Director Tyler Sues reported the commission's approval by majority vote to the Board of Supervisors this week.

The church permit has been granted to the Center of Creative Living of which the Reverend Muriel Haskell, D.D., is the founder and minister at Idyllwild.

ACCORDING TO THE application a house at 44-397 San Pasqual Avenue, between De Anza and Catalina streets, will be renovated as a "Spiritual Center" for the religious group. The living room will be used for group services, and one bedroom, with an outside entrance, will be used as an office.

The application states, "There will be less noise than in the average household with children. No singing. Music to be furnished either by recording piano or small organ at such a pitch as to not be heard outside of living room."

Dear Abby...

...by Abigail VanBuren

DEAR ABBY: I'm a bride of three months and my husband is very good to me, when he's awake. After dinner he stretches himself out on the sofa and watches TV and then falls asleep. He doesn't do this every night. Two nights a week he plays league basketball and I don't see him at all. I feel so unneeded. Seriously, Abby, I'd like your advice.

DEPRESSED

DEAR DEPRESSED: When a

groom of three months falls asleep right after dinner in front of the TV set, it's a pretty poor commercial for his wife. If he's got the pep to play league basketball, he's got plenty of vitality. I'd say it's your move.

DEAR ABBY: We are a family of five. My husband traded in a perfectly good five-passenger sedan for a two-seater sports car. What would you say he had in mind?

HIS WIFE

DEAR WIFE: Himself.

DEAR ABBY: Two years ago I fell in love with a married man, and at the time I didn't know he was married. Naturally when I found out I quit seeing him. I never stopped loving him though. Last week he called to tell me he had his divorce and he wants to see me. I still care for him, Abby, but my parents do not approve of him because he didn't tell me he was married when he first

went with me. I am 24 and have a good job. I would like to see him. Please tell me what to do.

TORN

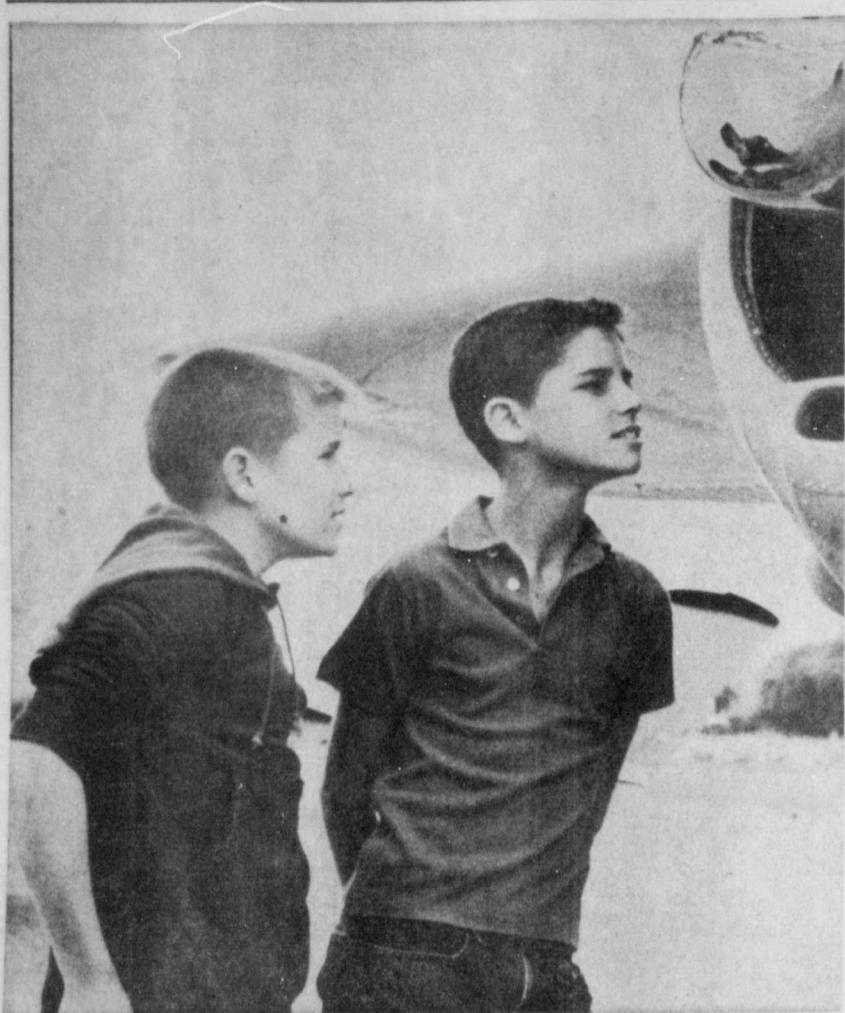

DEAR TORN: There are two possibilities: This man could be married in which case he's poison. He could be free now but if you married him he could "forget" to tell the next young lady who looks good to him that he is married to you. Lose him.

CONFIDENTIAL TO BABY

DOLL: Never mind the orchids. Hold out for orange blossoms. For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Ballot Campaign Launched by Federation of Women's Club

State legislators throughout the nation will be alerted to feminine concern over state driver licensing laws as the result of a unique "Ballot for Better Driver Licensing" campaign to be conducted by the General Federation of Women's Clubs, according to Mrs. B. V. Todd, national safety chairman.

The General Federation, which

numbers more than seven million members in this country, recently adopted a "Passport to Safety" Program to alert its members to the necessity for driver license legislative reforms to improve traffic conditions. The "Ballot for Better Driver Licensing" campaign will dramatize this program and express to state legislators the concern felt by women over the traffic accident problem, according to Mrs. Todd.

Printed ballots urging legislative action to improve state driver licensing programs will be sent to each of the GFWC's 20,000 affiliates throughout the country for signature by the members who will forward the signed ballot to their respective state legislators.

"We feel that the time has come to step forward and speak out vigorously for driver licensing laws that will operate to reserve the driving privilege for those motorists willing to accept and live up to the responsibilities inherent in the operation of a motor vehicle," Mrs. Todd said. "Our lives and health and the lives of our families have too long been jeopardized by a selfish minority of drivers who are incapable or unwilling to drive safely. In my opinion, this campaign for improved driver licensing procedures is the most significant and satisfying program ever undertaken by the General Federation of Women's Clubs."

In California, Mrs. A. F. Benton, President, and Mrs. E. L. Berdrow, Safety Chairman for California Federation of Women's Clubs, stated the ballots have been sent to every Federated Women's Club in the State for signatures. The deadlines for these ballots to be returned is March 25th. The ballots are in quadruplicate. One set will be presented to Governor Pat Brown, another to Robert McCarthy, Director of Motor Vehicles. Another set to be sent to Washington, D. C. to President Dwight D. Eisenhower and one to the President of American Ass'n. of Motor Vehicle Administrators.

Psychology Is Topic for AAUW

Carl J. Jung's approach to Psychology is literary and religious, as well as psychological, and dreams play a large part in the analysis, said Mrs. Culver (Sally) Nichols in her speech to AAUW Tuesday night at Cahulla School auditorium.

Mrs. Nichols told of her 14 months spent in Zurich, Switzerland and her studies at the C. J. Jung Institute for Analytical Psychology. She said each student is required to have an analysis before studying how to analyze others.

Many of Mrs. Nichols' friends, who attend extension courses with her, appeared as guests to hear her speak to AAUW. Mrs. Nichols has been the leader in extension courses from UCLA, such as Shakespeare, Modern art and Modern Poetry.

Mrs. Frederick Morrison, president, conducted the meeting and there was a report from Mrs. Jerome Bunker on the Home Tour.

The refreshment committee served coffee, tea, and cupcakes. They were: Miss Barbara Root, Mrs. Laura Long, Mrs. Wilton McCoy, and Mrs. Charles Vanderploeg.

New officers elected for two year terms 1959-1961 were: vice-president and program chairman, Mrs. William N. Larned; recording secretary, Mrs. Robert O. Schnabel; and treasurer Mrs. Hazel M. Gross.

First Nighters Dine at Beachcomber

The tropical atmosphere of Don the Beachcomber was an interesting setting for this week's First Nighter dinner, with all the rooms crowded and the Queen's Chair moved out to make room for more people.

Mrs. Richard Bagdasarian of the Guild and her committee of Mrs. Alfred J. Dreyfus, Mrs. Lee Palmer and Mrs. James M. Schlect, welcomed the arriving guests, adding their greetings to those of Beachcombers Pat O'Dea and Eddie King.

The popular Beachcomber hors d'oeuvres of spareribs, eggroll and shrimp were served first as an accompaniment for the Island-type cocktails.

A well-selected platter of polynesian foods, including mandarin duck, chicken almond, fried rice and greens, was served with hot tea, and the dinner concluded with fresh pineapple and cuminquats in ice.

A special guest at the dinner was Mrs. Leo G. Carroll, wife of the actor who is starred in this week's Playhouse offering "The Late George Apley." Mr. and Mrs. James Logan Abernathy (her paintings are hung at the Playhouse this week) hosted a cocktail party at their Sagebrush home preceding dinner and their party occupied one long table in the main room at Beachcomber. In this group were Messrs. and Mmes. Fred Albertson, Clyde Grigsby of LaJolla, J. E. French, Thomas Fleming, S. P. Manasse, Frank Morgan of LaJolla, John F. Lucarelli, Thomas Colby, and Mmes. Frank Dougherty, Grover Wayland, W. B. Malouf, Beth Scott.

Dr. and Mrs. Lee Palmer hosted a table for 16 with their guests including the Harry Henkels, William Haases, Kay Karahadians, Lionel Steinbergs, W. W. Silversteins, of Washington D. C., Carl Vectors, Mrs. Victor Sr. and Mrs. Suzette Walker. With the Merritt Joslyns were the Ralph Ogden of New York, Mr. and Mrs. Paul Schulze Jr. of Chicago, and Mrs. Bertha Schoonmaker. With Mr. and Mrs. James Allen Stone were Mr. and Mrs. Wayland Reynolds, and Mr. and Mrs. Don Angell.

Among visitors from distant spots were: the Marvin Wilsons and W.F. Vaughans of Vancouver, Mrs. Leslie Winfield Smith of Reno, Mrs. Olin Sharpe of Portland, Oregon, the John T. Simons of West Yellowstone, Idaho, David Lessers of Vancouver, Benjamin Krohns, Sydney Reinsers, Harry Brodys of New York City, O. R. Moores of Atlanta, Georgia, Lucian Cook of Nebraska.

Carroll, O'Brien Star in New Play

Marquand Novel at Playhouse

By GEORGE LAINE

Later by 25 minutes than even J. P. Marquand had intended, "The Late George Apley" Tuesday turned back Village clocks to stuffy, stodgy 1912 Boston.

The play, revised for the stage from Marquand's tragic-comedy novel by the author and George S. Kaufman, carries double value: it has more than its share of comedy, all predicated on the superciliousness of the Bostonian elite and it also does some subtle moralizing utilizing the same basis.

It is probable the subtleties were both unwanted and undetected.

THE 8:55 STARTING time was occasioned, I discovered, by the tardiness of a First Nighter.

Two actors stood out noticeably in Tuesday's opening. One was Christopher O'Brien, the other Leo G. Carroll.

O'Brien was caught in mid-line by applause a number of times but refused to be rattled. His portrayal as Roger Newcombe was done with understanding, with sensitivity and with a minute attention to Bostonian. He very nearly overshadowed Mr. Carroll.

BUT NOT QUITE. Carroll, who has grown in spite of affiliations with motion pictures and television, brought Apley as completely to life as the grossness of his audience allowed.

The fervor he displayed for such things as the Tuesday Club, his bird-watching society, and all the other facets of his shallow yet "complete" life were not humorous because Carroll slap-sticked his role. He did not. Apley was humorous because of his acceptance of the incongruous as the normal. Kaufman was primarily responsible for most of the editing that brought Marquand's subtle humor an easier communication. Samples:

"We were all young once—except Amelia."

"Happiness is a very rare commodity—especially in New England."

"It seems to be Dr. Freud's theory that sex governs the lives of almost everyone—in other parts of the country."

"Can't you wash," to his son, excusing himself to clean up for dinner, "at Harvard?"

THERE ARE SOME other lines that pour forth quite believably from Mr. Carroll. They aren't funny. They're tragic. Having muddled quite thoroughly in the lives of his son and daughter, Carroll sighs:

"I never meant to be unkind. I never meant to be intolerant."

There were some laughs, but the pathetic admission isn't humorous. Neither is this one:

"Life," says Apley, reviewing his own pitiful existence, "has a way of slipping out of your hands."

"THE LATE GEORGE APLEY" currently playing at the Palm Springs Playhouse, takes place at the turn of the century in Boston, and the cast shows off its costumes for the play as they pose for a "portrait." Pictured in the car are Phyllis Flax and Leo G. Carroll, and in front of the 1913 Oldsmobile are, left to right, Christy Palmer, Sue McDonald, Bill Hughes and Jesse Glendenning. (Desert Sun Photo)

SUNDAY NIGHT BUFFET dinners are a popular meeting place for notables visiting Palm Springs. Pictured here are Leo G. Carroll, star of the famous "Topper" series, and now playing the lead in "The Late George Apley" with Marrian Walters, right, at the Palm Springs Playhouse. Oasis Hotel's chef, Joe Pickett, is serving the famous couple.

THERE WERE SOME excellent supports for both Carroll and O'Brien. Jessie Glendenning was superb as Mrs. Apley, Richard Tretter made his Playhouse debut an auspicious one by giving young John Apley a fairly believable reading. Cristy Palmer, as Eleanor Apley, did an even better job although her voice carries so well that it might be advisable to lessen volume.

Phyllis Flax did a meritorious job as Cousin Amelia and William Hughes and Marrian Walters also accredited themselves well.

Although the decor of the set was scarcely Bostonian, some compensation could be gained from the costuming and makeup which were both excellently done.

Police Traffic Officers Win Commendation

Police traffic officers today won commendations from the Chamber of Commerce, the Retail Merchants Association and Police Chief August Kettmann for their "excellent job" of regulating week end traffic in the downtown area.

Chamber Manager Jimmy Cooper, in a note to Chief Kettmann, expressed the commendations of the chamber and merchants association for "very fine traffic direction."

Chief Kettmann added his kudos "for an excellent job by the officers assigned" to the downtown traffic detail.

The new traffic control system, inaugurated a few weeks ago, has officers stationed at critical downtown intersections to insure a smooth flow of vehicle and pedestrian traffic through Palm Canyon Drive, relieving the traditional congestion of weekend resort vacationers.

Resuscitator Benefit Dinner Set Saturday

THOUSAND PALMS — Community women have planned a special Saturday night dinner to raise funds for the purchase of new life-saving equipment for the volunteer fire department.

Led by Mrs. Dewey Wallace, Thousand Palms women and firemen are sponsoring a dinner at Desert Moon Ranch, at 6 p.m. Saturday.

Proceeds from the dinner will be used for the purchase of a resuscitator for community use.

Mrs. Wallace said that prizes will be awarded and donation for the dinner is \$1.50 per person.

Junior High Singers Tour Sixth Grades

Sixth grade students at Palm Springs elementary schools were serenaded this week by members of the Nellie N. Coffman Junior High School choir and Madrigal Singers.

The singers toured the various elementary schools to acquaint next year's junior high pupils with the various activities of the school, Schools Supt. Dwight Twist said.

The singers were accompanied by their director, Hugh Givens, and junior high counselor James Milliron, who offered the sixth graders helpful tips on registration problems for the coming school year.

Soviet Pace Logging
NEW YORK (UPI) — The Soviet Union is striving to boost livestock production, but U.S. officials say the Russian pace is lagging behind Premier Khrushchev's 77 million head of hogs by 1962.
It is estimated the Russians would need a 17 per cent average annual increase in hog numbers. The increase during 1958 was only 9 per cent.

Heroic Tradition
BELLOW FALLS, Vt. (UPI)—Ethan Allen, named after the famed leader of the Green Mountain Boys, became a hero to the National Guard when his enlistment brought Company A up to its full strength for the first time since it was organized in 1953.
